

Memorandum

Union Texas Petroleum

Date: 4 November, 1989
To: M.H. Kazmi
From: D.D. McAfee
Subject: Houston Circuit

I would like to take this opportunity to pass along the appreciation of Mr. Kennedy and myself for the fine efforts you and your people have contributed to getting the Houston circuit established and working. I know it was a monumental effort and want you to know your contribution was noticed and appreciated.

I also recognize the fine efforts made by yourself on our behalf at the airport. These efforts are also very much appreciated.

Please give our thanks to your people, as they deserve much of the credit for the communication success we are enjoying.

D.D. McAfee

To Whom It May Concern:

I am pleased to recommend Shahid Ashanullah, proprietor of Ashanulla Electronics of Pakistan, as a respectable contractor capable of providing numerous skills in the telecommunication and data communication fields. Shahid has served Union Texas Petroleum for over 6 years. His expertise and insight has allowed for many things to get accomplished with little or no problems. Specifically, Shahid has received training and demonstrated his skills on PBX installation and repair, inside and outside plant wiring, satellite communications, p.c. and tape drive repair (Comspec Data Communication Systems), plus other areas requiring software support and hybrid circuit design. Shahid has taken the opportunity to receive certified training on numerous pieces of equipment. My association with Shahid Ashanullah has been very positive. I look forward to a continued association with him and his company.

Sincerely,

Lee J. Bentch
Supervisor Communication Systems

TO WHOM IT MAY CONCERN

We are happy to convey that Shahid Ahsanullah from Ahsanullah Electronics has been providing us valuable services on retainer basis from 1985 till 1996 under the Union Texas Pakistan, Inc.'s Blanket Purchase Order No. BPO/95-075 in connection with the maintain our basic and advance communication system.

During the initial period, Shahid helped a good deal in organizing our communication setup and support services for PABX system, Dialup Data communication system, Telex Data System. Besides, he also contributed in the Badin Concession upgrade plan, requiring specific technical skills on lease circuits and its application in Satcom, Microwave and VHF, which was successfully installed and centralized voice/data network was completed in a short span of time. Complex expansion, installation and voice/data cabling work at the Field and Karachi office was also performed by him, where he demonstrated superior technical and management skills.

Shahid worked very closely with Union Texas's Administration Department assisting widely in all spheres of the communication related services Karachi, Islamabad, Houston and field locations. He also helped us in maintaining proper coordination with our Houston office technical staff and continued to enhance proficiency in his technical expertise and obtained certified training/overseas exposure, on a good variety of equipment. His expertise and insight have allowed for many things to get accomplished with little or no problems.

Since our operation has widely expanded, UTP decided in creating an in-house department for the same services to fulfill communication needs promptly and also on regular basis in order to maintain our communication system.

Hence forth the contract services were no longer required by UTP, our management unfortunately had to terminate the BPO/95-075 of Ahsanullah Electronics under which Mr. Shahid has been working for us.

We wish him good luck, success and bright prospects in his future and do not hesitate to recommend him for any similar responsibilities.

TO WHOM IT MAY CONCERN

It is with great pleasure I wish to highlight my thirteen years of association with Shahid Ahsanullah of Ahsanullah Electronics Karachi who has worked extensively for over **12 years** for **Union Texas Pakistan Inc.** together with me under my guidance providing very valuable technical management services to the company.

Since, **1985** he started off as a **Communication Maintenance Contractor** covering almost all aspect of the technical services at Karachi offices & residences, Badin concession area and Islamabad offices & residences. Gradually, with the expansion of the work, he developed and organized a team of technicians, assistants and field staff and stood dedicated for all maintenance, installations and trouble-shooting services, round the clock with full responsibility.

Specifically, Shahid has been responsible for the following communication equipment and maintenance services in which his performance and management remained exemplary:

- PABX systems and Telephone lines and all cable Networks at Karachi, Field & Islamabad locations.
- Microwave Digital Radio System link with Badin concession area.
- Voice, Fax & Data communication/WAN on Satellite, Microwave and PTC dialup Network.
- HF SSB Wireless Extel data communication system.
- PTC lease circuit on VHF, Microwave, FibreOptics, Satellite (*PTC/AT&T*) and Tlx-lines for Voice/Data.
- IBM Network cabling for PABX & Computer Network.
- Coordination with UTP Houston office and overseas vendors for maintenance coordination and spares/upgrade availability and it's imports.

Shahid has shown to be a dependable hard worker with a firm commitment long term attitude from the start and during the transition of work to a much recent full fledged UTP communication department. He has the aptitude to work comfortably with expatriate engineers and has proved very useful to Union Texas in a number of highly technical projects involving voice and data communication needs. A good number of prestigious Int'l companies invited him several times overseas in Europe and America for advance technical training which he availed successfully. In a number of instances, Shahid has also shown his ability to design customized circuitry for different communication application and saved the company a lot of valuable time and money.

I can safely recommend him to a position of trust and confidence and wish him God speed in his business and career.

Dear Sirs,

We confirm that M/s. Ahsanullah Electronics (Pvt.) Limited, Pakistan have been providing us commissioning and support services for our on-line IBM 3174 Computer link on PTCL provided circuit with our overseas offices for the last 10 years.

Maintenance support coordination for proper operation of the lease circuit continues to be extended by them and all break-downs of the circuit at local or international gateway level has been handled professionally.

During this period Mr. Shahid T. Ahsanullah of Ahsanullah Electronics has continued to extend technical assistance and provided valuable information to our company as required from time to time for our expanding data communication needs. Currently, Ahsanullah Electronics have been extending urgent assistance in setting up a provisional dial-up terminal extension at our premises in Port Qasim.

Yours faithfully,
for Maersk Pakistan (Pvt) Limited

OMV (PAKISTAN)

Date: 7th April, 1997

TO WHOM IT MAY CONCERN

OMV (Pakistan) Exploration takes pleasure in conveying that Ahsanullah Electronics (Pvt) Ltd. has been providing us with valuable services since the last 3 Years for our communication setup with the Miano Gas fields in District Sukkur, Pakistan. We have found the support services from Ahsanullah Electronics as commendable for our HF SSB voice / data communication setup at Rig sites and Islamabad office. During the Years they have continued to properly manage and be available promptly to handle all urgent shifting, repair, maintenance and installation training works as per our diverse drilling needs from time to time for our Paktel HF SSB Radio and Computer systems.

Especially, we would like to mention Mr. Shahid Ahsanullah, whose effort in organizing and handling the above services proved beneficial for our company. He has continued to be very helpful and has also assisted us in organizing our new Islamabad office Radio Room with all facilities such as Multiple source for Electrical power, backup uninterrupted Computer power, telephone / telex cabling / paneling and Radio Antenna cabling with proper RF Grounding network etc.. These steps have proved very helpful for our Radio room operation and efficiency.

Subject: LASMO VSAT PROJECT

Dear Mr. Ahsanullah,

I wish to convey my deep appreciation for the timely and adequate technical coordination services extended by Ahsanullah Electronics which facilitated complete coordination between LASMO and Pak Datacom in this Project.

I would especially like to thank Mr. Shahid Ahsanullah who's relentless assistance in organising these services proved helpful and up to our expectations.

I hope that we can continue this relationship between our companies for future projects.

Thanking you.

Warmest regards,

MUEEN SADIQ MALIK
Managing Director
